

# FREE COMPUTER BASICS CLASS

This 6-week course teaches adult learners essential computer skills that are needed in daily life. This course is especially helpful for adult learners who need more computer skills in order to get a job or move into a higher-paying job.

This course is designed for individuals with minimal or no digital skills operating a computer. Participants need to have basic literacy skills including basic reading and writing. Instruction and/or support in Spanish is provided at select locations.

## LEARN HOW TO:

- Use a computer
- Search the internet
- Search for jobs and resources online
- Create and use email
- Participate in video calls
