

SolidWorks Online & In-Person Classes

 **SOLIDWORKS**

Ventura Adult and Continuing Education (VACE)

The **SolidWorks online and in-person** class will provide you with practical, hands-on experience working with the software. No previous knowledge of SolidWorks is necessary. Intermediate and Advanced SolidWorks students can continue to learn the software, picking up where they left off. Students have the flexibility to learn at their own pace with a requirement of 30 hours (approximately three hours per week for ten weeks) and may choose to complete all assignments and quizzes online **OR** to attend in-class sessions. Each lesson consists of software-based tutorial exercises and projects based on the SolidWorks software. No textbook is required for the introductory class.

Students will need access to a PC computer, Internet connection, and previous Windows experience. Sorry, but SolidWorks is **not** Mac-compatible.

VACE will provide students with access to the Canvas Learning Website, which is necessary to download course materials and submit completed assignments. Previous experience with CAD software is recommended but **not required**.

Enrollment in the course includes a FREE, one-year, fully licensed, student version of the SolidWorks 2020 software directly from Dassault Systèmes, the software manufacturer.

How to Register:

Call the VACE Admissions Office at 805.289.1744 ext. 0

Cost:

\$125.00 session fee,
