

# Medical Terminology

This **Medical Terminology** course is designed to help students learn medical terminology easily and quickly, **online and in-person**.

No previous knowledge of medical terminology is required.

The course uses a body-system approach to learning medical terms. Students will learn common anatomical roots, suffixes, and prefixes, the proper way to analyze terms, build medical words, basic body organization and the fourteen body systems.

Students have the flexibility to learn at their own pace with a requirement of three 30-hour sessions (a total of 90 hours) and may choose to complete all assignments and tests online or to attend in class sessions. For course completion, students must meet all competencies.

**Session Length: 30 Hours, 10 weeks**

<b>Summer Session:</b> 7/12 to 9/13/22	<b>Winter Session:</b> 1/3 to 3/7/23
<b>Fall Session:</b> 9/27 to 12/6/22 (no class 10/25, 11/22)	<b>Spring Session:</b> 4/11 to 6/13/23

**In-Person Classes meet Tuesdays, 6-9 pm**

Face masks are recommended  
when attending in-person classes
