

# Adobe Photoshop

## Evening Class

### Ventura Adult and Continuing Education (VACE)

Learn to edit and manipulate computer graphic images for output to print, video, and the internet. This course will instruct students on the creation of images, the use of special effects and filters, and the basic animation of graphic images and video. Students will also learn importing and exporting files and programs, evaluating compatibility issues, and creating images using digital cameras, digital video and scanners. Basic computer operations will NOT be covered. **The course will be taught using a Macintosh platform.**

Topics include:

- ✓ Editing, manipulating, and repairing images and photos
- ✓ Layering and masking
- ✓ Tool palettes, filters, and special effects
- ✓ Using scanners, digital cameras and other input devices
- ✓ Renaming, resizing and cropping images
